WEATHER FORECAST

INDICATIONS ARE THAT THE
WEATHER WILL BE GENERAL-
LY FAIR TONIGHT AND SUN-
DAY; WARMER IN SOUTH POR-
TION TONIGHT.

SENTENCED TO DEATH

Woman Induced Her Son to Kill His Father

Paris, Jan. 13.—At a late hour last night Robert De Courvigny and his mother, the Baroness de Courvigny, were found guilty by a jury at Caen. The youth was charged with shooting and killing his father and the baroness with complicity in the crime and with attempting to poison the baron. The jury reported that there were extenuating circumstances in the case of the son. The court sentenced the baroness to death and the son to twenty years imprisonment. The Courvigny family lived at Fenne Lamere, and it is alleged that the baroness, whose allowance had been cut off by her husband, because she was a confirmed drunkard, coolly held a family council which discussed the best means of removing the baron. Three attempts to poison the baron were made, although they proved unsuccessful. The baroness, it is charged, then made her son Robert intoxicated with absinthe and induced him to shoot his father. After the deed she calmly examined the baron's body to make sure that he was dead.

SOUNDS A WARNING

England Should Be Prepared for War Says Lord Roseberry

London, Jan. 13.—Lord Roseberry, in a speech at Glasgow university today, warned the nation of the necessity of backing up the country's foreign policy which, he said, for good or evil, had now embraced England in the continental system, and might at any moment bring the country into contact with armies numbering millions. Lord Roseberry said he did not desire to make the flesh creep, but the position was one of extreme danger and for which it was impossible to be over-prepared.

AMERICANS IN CHINA

U. S. Forces Will Total Over 1400 Armed Men

Washington, Jan. 13.—Nine hundred men of the United States marine corps, it was learned today, are at present in China, dispatched there from the Philippines in small numbers since last October. The United States, as early as that date, was moving quietly in preparation for any emergency in China. With this marine force and the battalion of 500 infantrymen now on its way, the United States will be equipped for the share of international work in China.

RAILROAD MAN IS ADJUDGED INSANE

Seattle, Wash., Jan. 13.—John J. Harding, former supervising engineer for the Chicago, Milwaukee & Puget Sound railroad, was adjudged insane yesterday and was committed to a state asylum. Mr. Harding has the reputation of being a very capable man, and that he is to marry the Princess Patricia, daughter of the Duke of Connaught, governor general of Canada. Two falls, in each of which Mr. Harding sustained a fractured skull, are said to be responsible for his plight.

UTAH COUNTY POULTRY SHOW

Provo, Jan. 13.—The annual show of the Utah County Poultry association has attracted much attention during the entire week and great interest was taken in the scoring of the birds. Judge L. C. Taylor of Columbus, O., who was the official scorer, stated that there were fifty birds on exhibition which scored above 85. The silver challenge cup, valued at \$25, was awarded to John Guy on a pair of French Houdans, the second prize, also a silver cup, was captured by Mr. Guy with a pen of Houdans.

CHIEF ASSISTANT TO ENGINEER NAMED

Salt Lake, Jan. 13.—John Duder, for four and a half years engineer in charge of the city streets under former administrations, has been selected as chief assistant to City Engineer D. H. Blossom, the appointment becoming effective Monday. H. G. Smith, who occupied the position under City Engineer McGonagle, has resigned to take a position with the Oregon Short Line. H. F. Zulich has

been appointed to head the department of drafting and estimates, these two departments having been consolidated by Mr. Blossom. Mr. Zulich served under former City Engineer Shaw.

City Engineer Blossom asks publication of a statement that his department will not be pulled to pieces as stated by a local newspaper. "Some employees of the department are being laid off, as this is the dull season of the year, but the sole qualification considered is that of efficiency," said Mr. Blossom. "We will retain as many of the present force as their capabilities and the requirements of the service justify."

L. H. Krebs, engineer of sewers, will continue in the employ of the city engineer's department, notwithstanding reports to the contrary. He will continue in charge of the sewer department of the work. P. F. Conner, former chief draftsman, may find a place in the department, but C. C. Burt, general assistant to the city engineer, is slated to go and W. J. Jorden, E. P. Hapgood and Henry G. Harmon have already secured positions with the Oregon Short Line. Wilber A. Richmond, assistant engineer in the sidewalk department, has tendered his resignation.

Brother of One of the Dead Men Attempts a Rescue

Spokane, Wash., Jan. 13.—Clad only in a thin suit of underwear and a pair of socks around his bare feet, Leander Linsten, a miner, walked four miles through waist-deep snow late yesterday to Wallace, Idaho, to summon help for his brother and a companion, who, with him, had been caught in a snowslide west of Wallace the day before. The rescuing party found Arthur Linsten and John Pearson buried under the wreck of the cabin, both dead.

It was near daylight when the avalanche of snow hit the hut, according to Linsten. He heard his brother say: "You get out if you can, Lee; I am here for good. There's no use helping me, every bone seems broken, so you must go, if you can."

After freeing himself Linsten tried to pry a heavy timber from off his brother, but had to give it up, and started in his scant attire for help.

WORLD'S MARKETS

WHEAT UNDERGOES A GENERAL DECLINE

Chicago, Jan. 13.—With the weather northwest 30 to 40 degrees warmer than two days ago and with consequent prospect of larger receipts in that direction, the price of wheat today underwent a gradual decline. The Argentine was also a source of weakness. Opening figures were unchanged 1-4 down. May started at 99 5-8 to 99 7-8 and fell to 99 3-8@1-2.

Commission selling carried down corn. May opened a shade to 1-8@1-4 off at 61 1-2 to 61 3-4 and sank to 61 1-4.

Support for oats turned out to be of a scanty sort. May started 1-8@1-4 lower at 49 and receded to 48 7-8. Packers were on the selling side of provisions and made the market easy. First sales were 2-2 to 7-12@10 lower with May 16 1-2 to 1-2@9.57 1-2 to 9.50 for lard and \$8.80 for ribs.

OGDEN WHOLESALE PRODUCE

(Selling Price)
Ogden, Utah, Jan. 13.—Butter—Creamery, extra in cartons, 35c; creamery, firsts, 34c; cooking, 25c; ranch, 20c.
Cheese—Eastern, 13 1-2; Utah, 13 1-2; mild, 15 1-2; Y. A., 15 1-2.
Eggs—Per case of 30 doz., \$8.00.
STAGAR—Cane, \$6.50; beet sugar, \$6.40.

Chicago Produce.

Chicago, Jan. 13.—Butter—Firm; creamery, 28 3/4; dairies, 26 3/4.
Eggs—Eastern, included, 28 1/2@29 1/2; firsts, 28 3/4; prime firsts, 33.
Cheese—Steady; dairies, 16 1/2@16 3/4; twins, 16 1/4@16 1/2; young Americas, 16 1/2@16 3/4; long horns, 16 1/2@16 3/4.
Omaha.
Omaha, Jan. 13.—Cattle—Receipts 700; market steady; native steers, 5.25@7.50; cows and heifers, 3.25@5.50; western steers, 3.80@6.00; range cows and heifers, 3.00@5.15; canners, 2.80@3.00; stockers and feeders, 3.25@6.00; calves, 3.50@7.75; bulls, 3.25@5.50.
Hogs—Receipts 7,000; market 5c to 10c lower; heavy, 6.15@6.30; mixed, 6.00@6.20; light, 5.80@6.20; pigs, 4.50@5.75; bulk of sales, 6.00@6.20.
Sheep—Receipts estimated at 1,500; market steady; yearlings, 4.75@5.75; wethers, 4.25@4.75; ewes, 3.25@4.25; lambs, 6.00@7.00.

Chicago Livestock.

Chicago, Jan. 13.—Cattle receipts estimated at 1,500; market steady; beefs, 4.75@5.50; Texas steers, 4.30@5.50; western steers, 4.50@7.25; stockers and feeders, 3.50@5.50; cows and heifers, 2.00@6.65; calves, 6.50@9.50.
Hogs—Receipts estimated at 20,000; market slow, shade lower; light, 5.50@6.42 1-2; rough, 6.00@6.15; good to choice heavy, 6.15@6.42 1-2; pigs, 4.75@5.55; bulk of sales, 6.00@6.20.
Sheep—Receipts native, 2.25@4.95; market steady; yearlings, 4.75@5.75; wethers, 4.25@4.75; ewes, 3.25@4.25; lambs, 6.00@7.00.

TOO MANY MILLIONS

George Gould Forgets Details of \$3,000,000 Coal Deal

New York, Jan. 13.—A verdict of \$607,159 was returned by a jury last night in favor of John S. Jones, a railroad promoter, in the third trial of his suit to recover from George Gould, Jos. Ramsey, Jr. and Wm. E. Guy damages for being "frozen out," as he alleged, from the Little Kanawha syndicate, organized by the defendants to develop coal fields in Ohio.

Jones, at the two previous trials, had recovered verdicts for more than \$500,000, which were reversed by the appellate division.

Mr. Gould, the last witness to testify, said he had contributed \$3,000,000 to a total of \$8,000,000 raised by the syndicate to take over options, but when questioned by Jones' attorney concerning the books and minutes of the syndicate, made the smiling admission that the matter was of such little interest to him that he had allowed the details to pass from his memory.

Mr. Gould said he presumed there must have been minutes of the management, but would not say he had ever seen any nor could he recall who the secretary was.

MARTIAN MYSTERY

Great Canal Doubles in Size in Six Weeks

Flagstaff, Ariz., Jan. 13.—Observations at the Lowell observatory show that the Martian canal Titan has doubled since the last presentation of this region six weeks ago. The canal then was a single gossamer-like filament running nearly straight north from the Gulf of Titan across the equator and far into the northern hemisphere of the planet.

A perfectly parallel line has now appeared to the east of it, the distance separating the two being somewhat more than a hundred miles. The filaments have no appreciable width and they leave similar caret-like marks in the coastline as starting points.

Although of no sensible width, these canals are perfectly straight and enclose a long, exceeding two thousand miles. They are strongest nearest the poles and have been increasing in visibility northward, which shows that what gives rise to them is slowly traveling down the disk from the southern hemisphere, where for months the snow has been melting into the northern one, which is just entering into its spring. They leave the great blue-green areas of one hemisphere to traverse the immense equatorial region to oases in the other.

This doubling of certain Martian canals at certain seasons is one of the mysteries of the great planet. It is one of the many proofs that the canals are of artificial construction.

ABDICATION OF THRONE

Has Been Decided on by the Imperials of China

Peking, Jan. 13.—The abdication of the throne has been practically decided on and the retirement to Je Ho will take place almost immediately. A prolonged meeting of the principal members of the government this afternoon partly arranged the details of the abdication.

Owing to the growing disorders in the provinces the Manchu princes of the imperial clan and the Manchu officials and the soldiery agree that this is the only course open to the throne.

UTAH MAN PICKS UP MESSAGE FROM DEAD

Los Angeles, Jan. 13.—A message from the dead was cast up by the sea at Ocean Park today when P. C. Peterson, vice president of a stone company at Ephraim, Utah, who was a visitor at the beach, found a bottle in the surf which contained a yellow slip of paper with these words:

"Daniel Simpson committed suicide October 15, 1911. I bid all my friends good-bye. I am sorry to do this, but had luck have forced me to do it. San Francisco, Cal."

GARFIELD TO HAVE
\$16,000 CLUBHOUSE

Garfield, Jan. 13.—Through the earnest and untiring work of Bishop

Spalding of Salt Lake City, the young men of Garfield are soon to have a club building which will be equalled only by the largest ones of the cities of the west. The building has been donated by the Rev. M. Rice, chairman; John Fox, secretary; C. W. Aldrich, treasurer; Gilbert Palmer, Dr. D. L. Bernard, J. F. Munger and Charles Robinson.

The building is to be three stories. In the basement will be a gymnasium with plunge and tub baths, pool and billiard tables. The first floor will be occupied as reading rooms, where all the best magazines and books can be procured and read at all times.

The top floor will be used as living apartments for the custodian in charge. There will be rooms for about twenty young men.

The club will be turned over to the committee totally free from debt, and it is estimated that the total cost will be close to \$16,000. Work will commence just as soon in the spring as the weather will permit.

RAILROADS BLOCKADED

Snow Drifts in Kansas Are Thirty Feet High

Topeka, Kan., Jan. 13.—The railroads are still fighting for a passage through western Kansas. The Santa Fe has been opened to Dodge City, but west of that point the line is blocked by drifts in some places 30 feet high and only rotary snow plows are effective.

Snow has been brought out at Dodge City has been brought out. No promise is held out at the general offices that the track can be cleared by night. The Rock Island reports today that the line southwest from Herrington will be open by tonight. The Union Pacific is having less trouble and will be running trains through before night.

Local conditions are improving with the rising temperatures, the minimum here being six below zero.

TEXAS IS IN QUARANTINE

Meningitis Scare Has Its Effect on The- atricals

Dallas, Tex., Jan. 13.—Good effect of publicity aimed at control of the spinal meningitis outbreak here became apparent today. Local papers have for days published all facts obtainable about meningitis.

This has developed a public sentiment, physicians say, which compels enforcement of quarantine and makes concealment of the disease next to impossible. Several theatrical companies which were to tour Texas in the near future have canceled their contracts.

This is due to small attendances at the theaters later because of the prevalence of the disease.

NOME IN DANGER OF COAL FAMINE

Nome, Alaska, Jan. 13.—There is a coal shortage here and a meat shortage is threatened. Coal dealers say the supply of fuel will last only two months and new supplies of coal and beef cannot be brought from Seattle until the opening of navigation in Bering sea in June.

Most of the gold mines have shut down for lack of coal. Some of the larger companies are installing oil burners, there being a plentiful supply of fuel oil.

All saloons and the government buildings are using oil and have given their coal to the city for distribution among the people to warm their homes. The cold has not been severe, the minimum temperature last night being 2 degrees above zero.

PERSIANS FEAR THE RUSSIANS

London, Jan. 13.—M. Monard, when he took over the treasurer generalship of Persia, even refused the request of P. E. Chirna, the Russian agent in charge of the treasury, by W. Morvan Shuster, for acquaintance and receipts similar to those Cairns gave Shuster, says the Tehran correspondent of the Times.

A correspondent in Persia, writing to the London Economist, says the Persians dislike M. Monard extremely and will consent to his appointment as treasurer general only through fear of Russia.

Monard, he says, always has identified himself with the Russian party and the appointment, if confirmed, will be a serious rebuff to British interests and will be considered by Persia as a Russian triumph over England.

FIVE ARE DROWNED

Men and Girls, Out For a Time in an Auto, Meet Death

Trenton, N. J., Jan. 13.—Two men and three women were drowned early today when the automobile in which they were riding ran on the ice covering an artificial stream of water used by a power plant outside this city.

The men were Donald Reed, son of former Supreme Court Justice Alfred Reed, and Chester A. Van Clee, an automobile salesman. The names of the women are not yet known. Frederick M. Foster, a third man in the party, who was running the automobile, escaped drowning, but is suffering from exposure. Foster managed to escape from the machine after it had broken through the ice and ran nearly a mile to get help.

The accident happened at a point where there is a sharp bend in the road and on private business, but he became numb from the cold and that he was unable to control the steering wheel.

Two of the girls' bodies were soon gotten out and brought to the morgue here. One was Margaret Lindall and the other Helen May, said to be from New Haven, Conn. The third is believed to have been Anna Hazel.

Foster refuses to give the names of the women. It is believed they had been invited to take a ride as far as Washington's Crossing, N. J., a distance of six or seven miles.

When Foster reached the road house he was coated with ice and is now in a critical condition.

Foster, the owner and driver of the car, is a member of a well known Trenton family. The three men met the three women here last night and went to the road house, which is several miles north of this city. On the return trip the thermometer, being below zero, the top of the automobile was up and the side and front curtains buttoned. The members of the party, bundled in furs and covered with cold-repelling rugs, had no chance of escape when the machine, bowling homeward at a fast pace, suddenly left a short turn in the road and plunged on the ice covering of the mill race at Brookville.

Foster owes his escape from death to the fact that he was driving the car. He went under the water's surface with the others, but disentangled himself and struggled ashore.

Foster managed to get to a road house, a mile away, and summoned help. He is threatened with pneumonia and was brought from the road house to his father's home here.

Up to noon only two bodies had been recovered, those of the Tindall and Mulvey girls.

CONGRESSMEN TO BE ELECTED FOR SIX YEARS

Chicago, Jan. 13.—Congressman William Kent of California, in a speech before the City club last night, advocated a constitutional amendment making the congressional term of office six years, with the option of recall.

"Under the present system," he said, a congressman, if he wants to remain in office, is obliged to spend the greater part of his time campaigning and has little or no time to devote to statesmanship."

TEXTILE WORKERS CEASE RIOTING

Lawrence, Mass., Jan. 13.—All the textile mills were re-opened today without signs of disorder from the strike.

At the Washington Wood, Ayer and Lawrence Dye company mills the workers were confronted by guards. The men showed no signs of creating trouble and marched into the buildings in an orderly manner. Soon afterward the paymaster began distributing the weekly pay envelopes, which was the cause of the strike being started, the pay of the workers having been reduced incident to the decrease in hours of labor to 54 a week. Whether a general strike would be called was to be decided at a meeting of the labor officials today.

WOMEN HELP TO CONVICT AN EDITOR

Tacoma, Jan. 13.—A jury, with Mrs. Lida Kennewell as forewoman and one other woman member, returned a verdict of guilty here late last night against Jay Fox, editor of the Home Colony Agitator.

Fox was arrested for publication of an editorial called "Nudes and Prudes," in which he criticized county authorities for interfering with nude bathing practices at a communistic community near Tacoma.

The maximum penalty is a fine of \$1,000 or imprisonment for one year in jail, or both.

MILLIONAIRE FOR A DAY CUTS CAPERS

New York, Jan. 13.—A raw-boned, dynamic, red-headed Irishman with small, sparkling, greenish-gray eyes and a spreading forehead, sprang down the steps of a special train at Jersey City at 6 o'clock last evening. He gazed about him hungrily and then crooked his finger in the direction of the small, coal-black negro

who made one of the surging group about him.

"Hey, you Smoke O'Loughlin," he called crisply, "serve me up four taxicabs. I want wan for me physician, wan for me secretary, wan for me head and want for me feet. And, say, get the kind that pants and jumps when you look at 'em."

John Jay ("Butch") McDewitt of Wilkesbarre, Pa., had arrived in New York to put the final crimp in the \$2,500 roll he became possessed of a month ago when he sold to an opponent the Democratic nomination for county treasurer, which had been tendered him as a joke. John Jay has been joggling along in this world from third-rate hobo to (losing) candidate for mayor of Wilkesbarre. If you ask him he will tell you he is a journeyman lumbar.

When the Wilkesbarre wildcat hit the big town this evening, after a prodigious day, he discovered that he had but \$72.40 with which to tickle the ribs of Father Kniekerbocker. Therefore he decided to economize right off the reel. He rescinded his order for a flotilla of taxis (instead tipping the crew of his fifty miles an hour, \$15-one-way special with one of his few remaining yellowbacks) and consented to enter Manhattan via the Hudson tunnel.

ADVOCATING ROOSEVELT

Ormsby McHarg Is Making a Tour of the South

Birmingham, Ala., Jan. 13.—Ormsby McHarg, former assistant secretary of commerce and labor, who is now in Birmingham, is said to be making a tour of the south in the interest of a Roosevelt presidential boom. Mr. McHarg has asserted repeatedly that he is here on private business, but the fact that he is visiting Judge Oscar Hundley and Joseph O. Thompson, both of whom recently have endorsed Roosevelt for president, is regarded as tending to confirm the report that he is working for the former president's nomination.

Mr. McHarg asserts that Roosevelt sentiment in the east is overwhelming. Hundley and Thompson were the Republican leaders of the state under the Roosevelt regime and both were Roosevelt appointees.

BANDITS ARE FIRED UPON

Three Robbers Blow Up a Bank at Newport Beach, Cal.

Newport Beach, Cal., Jan. 13.—Three bandits blew up the supposedly burglar-proof safe of the State Bank of Newport Beach with nitroglycerin early today, but, in a battle with the citizens, who were aroused by the explosions, were forced to drop their loot, amounting to about \$2,000, before they got outside the bank building.

One of the robbers was wounded, but all escaped. They are closely pursued by a posse, with their ultimate capture apparently only a matter of a short time.

Ben Kimball, a fisherman who rushed up to a point near the bank when the explosions occurred, was mistaken for one of the robbers and seriously wounded by a load of buckshot fired by William Hall, a saloon-keeper, who also wounded one of the bandits. The wounded bandit was picked up by his two companions and rushed to a rig eight blocks away, in which they escaped.

Four charges were exploded in the safe before it yielded. The first explosion aroused Hall and a number of citizens. Hall armed with a shotgun, secreted himself behind an oil barrel standing on the curb opposite the bank and, when the bandits emerged, fired at them. The shot from the big bore gun splattered the wall over the heads of the robbers who were carrying the loot in a horse's nosebag. He dropped the sack and fled.

Before they tried to blow the bank safe the bandits entered the postoffice and after robbing the till there of \$10, cut every telephone wire leading into the Newport Beach exchange, which is located in the same building. Having thus isolated the town, they took their time to work and later the lack of communication with Santa Ana, the county seat, delayed the beginning of the chase.

In their haste the bandits left behind them large quantities of nitroglycerin lying about in the vicinity of the looted bank.

The presence of the highly dangerous bottles deterred every one from entering the bank and constables established a cordon about the place to await the coming of detectives, who later joined in the chase of the robbers.

This was the second time the State Bank of Newport Beach has been attacked by robbers.

RIO JANEIRO, Jan. 12.—The situation in Bahia has become serious. The federal government has dispatched a warship to the city of Bahia where fighting was reported. Business is at a standstill and the people are in terror. The governor of the state today resigned his functions. The minister of marine, Admiral Marques Leao, has resigned and will be succeeded by Admiral Belmonte.

FREEZING TO DEATH

People in the Dakotas and Further East Per- ishing in Cold

St. Paul, Jan. 13.—A number of deaths resulting from the cold weather were reported today, three at Fargo, N. D., and one at Valley City, N. D.

The thermometer here registered 20 below last night.

Railway traffic is blocked worse than at any previous time this winter.

Suffering in New York.

New York, Jan. 13.—This was the coldest day New York has experienced in eight years. From five degrees above zero at midnight, the mercury dropped steadily until at 6:30 a. m. it was 3 below. At 3 o'clock the temperature had risen to 1 below.

Many persons, suffering from exposure, have been taken to the hospitals.

In the Adirondacks the temperature ranged from 15 to 46 degrees below zero and at points along the Hudson river the mercury was down as low as 31 below.

Cold and Growing Colder.

Boston, Jan. 13.—The official temperature here at the lowest touched several degrees below zero and weather authorities declared today that the crest of the cold wave was still to come. Northfield, Vt., held the lowest mark in New England today, with 32 degrees below.

Man Frozen to Death.

Philadelphia, Jan. 13.—Zero weather was experienced in Philadelphia today for the first time in eight years. The mercury went to 12 and 15 degrees below zero in the mountains of Pennsylvania. At Pottsville a man was found frozen to death in front of his home.

Water for St. Louis.

St. Louis, Jan. 13.—Thirteen degrees below zero was the lowest temperature recorded in St. Louis today. Sixteen degrees below had been predicted. Soon after the minimum reading the weather began moderating and six hours later, 9 o'clock, the government thermometer registered 4 degrees below. Fair and warmer weather is predicted with a temperature tonight of about ten degrees above zero.

Clarified water is now being pumped into the city mains, and officials of the water department believe the city's water problem is solved.

Several days ago floating ice at the intake curtailed the supply and threatened a famine.

Old Man Perishes.

Kansas City, Jan. 13.—Huddled close to the dead embers of a fire made from the last scrap of furniture in the house, the frozen body of Charles Hart, a negro veteran of the Civil war, was found in a cabin on the outskirts of the city today. Hart was 75 years old.

Young Couples Ask for Aid.

Chicago, Jan. 13.—One of the odd features in the ten days of zero weather here is the number of newly married couples who have appealed to the charity of the county for sustenance. In one day there were received 28 applications from such couples for aid. The oldest applicant of these was 22 years old.

Cattleman Loses His Life.

Kansas City, Jan. 13.—Although a rise of from ten to twenty degrees in temperature today greatly alleviated suffering here and in the southwest, normal conditions probably will not prevail inside of a week. Several degrees below zero was recorded here today.

Many details of privations suffered by western Kansas ranchers came to light today. Frozen to death in his saddle, his horse dead under him and scores of dead cattle about him, the body of T. C. Bidwell, a ranchman, was found half buried in the snow near Scott City, Kan., today. Bidwell lost his life attempting to drive his herds to shelter.

REMOVING SECURITIES FROM THE VAULTS

New York, Jan. 13.—About \$150,000,000 in securities was removed today from the vaults of the August Belmont & Co., in the Equitable Life building, destroyed by fire, but the work is being subordinated to that of shoring up the weakened walls.

Ogden Theater TONIGHT AND TO- MORROW NIGHT

Owing to the length of
the performance of
